

Leaf

Leaf, designed by Sergio Bellin, is a collection designed around the original linearity of the leaf and its nerves. The back upholstery is made with an elastic membrane that can be teamed with different types of fabric or fitted with breathable mesh. The innovative system for the application of the seat back guarantees maximum adaptability to the user's posture. The seat made of extra-thick foam guarantees superior comfort; it allows depth-adjustment to the desired position or free floating for customised ergonomics.

Projects

McDonald's, Mosca, Russia (2012)

Stockholm Furniture Fair, Stoccolma, Sweden (2012)

MTA Research Lab, Codogno, Italy (2013)
