FRANCESCO  
MOLON  
LUXURY FURNITURE

It was sheer passion, in 1966, which drove Francesco Molon, a young and talented craftsman, to set up his own business, with his wife, Giuliana, and a handful of trusted artisans. In the years of hard work that followed, Francesco Molon's commitment to the revival of classical European furniture propelled the business to acclaimed international growth. Now managed by Francesco's two sons, the Molon family business continues to honor the design and execution, which enables Francesco Molon pieces to be passed through generations.

The *Magic*  
of a Francesco Molon piece...

...starts in the search for the highest grade materials, superb veneers, refined burls, exotic rosewoods and ebony. Harvested from green, sustainable forestry, woods are welcomed into our warehouse, where they rest for a considerable time, drying and adapting to their new environment. Proper time is always given to each piece of wood, in order for it to fully blossom into a Francesco Molon creation. The natural beauty and distinctive appearance of unequivocally real wood is apparent in each Francesco Molon product.
